

## Rotary Youth Exchange – Long-Term Exchange Program

### Host Family Referral Form

As you are aware, for every student we send overseas each year, our program accepts a foreign student to spend that same period of time here. Finding host families for these students is often a challenge for our Rotary clubs, and may be the largest single reason that more clubs do not get involved. As someone who understands the value of our program and one who hopes to participate, you are being asked to help in this regard, by providing the names of three families in your area that will consider hosting an inbound exchange student next year. At least one parent from each named family must sign this form.

You may certainly include your own family as one of the three, and we will interpret that as an offer to host by your parents. In that case, please also provide the names of two other families that you have spoken with about your applying to be an exchange student, and who are willing to talk to local Rotarians about taking a student into their own home. If your parents are unable or unwilling to host next year, then you must provide the names of three families willing to consider hosting.

Finally, if your parents are interested in hosting in the future, but not during the year that you would be overseas, please make a note of that fact on the reverse, but provide the names of three other eligible families. Use the reverse side for any comments about these families or anything else you wish to add. **Email to: [Info@RYE5230.com](mailto:Info@RYE5230.com)**
